Northwest Evaluation Association, 2015 Concordance tables have been used for decades to relate scores on different tests measuring similar but distinct constructs. These tables typically derived from statistical linking procedures provide a direct link between scores on different tests and serve various purposes. Aside from describing how a score on one test relates to performance on another test, they can also be used to identify benchmark scores on one test corresponding to performance categories on another test or to maintain continuity of scores on a test after a redesign or change. Concordance tables provide a useful tool for educators, parents, administrators, researchers, and policy makers to evaluate and formulate academic standing and growth. Northwest Evaluation Association (NWEA) is committed to providing partners with useful tools to help make inferences from the Measures of Academic Progress (MAP) scores. One important tool is the concordance table between MAP and state summative assessments. Recently, NWEA completed a concordance study to connect the scales of Smarter Balanced Assessment Consortium (SBAC) Smarter Balanced English Language Arts (ELA) and Mathematics tests with those of the MAP Reading and MAP for Mathematics assessments. This report presents the 3rd through 8th grade cut scores on MAP reading and mathematics scales that correspond to the benchmarks on the SBAC ELA and Mathematics tests. Information about classification accuracy of the estimated MAP cut scores is also provided along with a series of tables that estimate the probability of receiving a Level 3 or higher score on the SBAC assessments based on the observed MAP scores taken during the same school year. A detailed description of the data and analysis method used in this study is provided in the Appendix.

**Smarter Balanced Preliminary Performance Levels** Northwest Evaluation Association, 2015 Recently the Smarter Balanced Assessment Consortium Smarter Balanced released a document that established initial performance levels and the associated threshold scale scores for the Smarter Balanced assessment The report included estimated percentages of students expected to perform at each of the four performance levels reported by grade and test subject e g English Language Arts or Mathematics based on preliminary field testing of the Smarter Balanced assessment conducted during the spring of 2014 These threshold scale scores and expected percentages represent a preliminary attempt at standard setting and Smarter Balanced may revise them after the spring 2015 testing term Nevertheless they represent the best information currently available about the cut scores that will be used during the spring 2015 testing term of the Smarter Balanced test Using the information provided within the Smarter Balanced report about the percentages of students expected to perform at each level Northwest Evaluation Association NWEA conducted a series of analyses to examine what Measures of Academic Progress MAP interim assessment scores might be associated with these performance level categories This was not an empirical study in the manner of our normal scale linking studies because the Smarter Balanced assessment has not yet been fully implemented NWEA intends to work with its partner school districts to conduct such a study examining the relationship between MAP performance and Smarter Balanced performance for individual students once Smarter Balanced has been fully implemented within NWEA partner districts NWEA analyses focused on the percentages of students expected to perform within each of the Smarter Balanced performance levels NWEA compared these percentages to our own nationally representative normative distributions in order to estimate the MAP scores that would produce similar percentages of students as those expected to fall within the Smarter Balanced performance level categories The approach taken here is quite similar to the approach used in many prior linking studies and can provide highly accurate estimates of cut scores Links used in this document are contained in the appendix

**Aligning the NWEA RIT Scale with the Maryland School Assessment (MSA)** Branin Bowe, John Cronin, 2005 Recently NWEA completed a project to connect the scale of the Maryland School Assessment MSA with NWEA's RIT scale One large school system participated in the study using test information from a group of over 24 000 students enrolled in third fourth and fifth grade who took both the MSA and NWEA reading tests in the spring of 2005 Information from these tests were used in a comprehensive study to identify the capacity of the RIT scale to predict success on the MSA and to identify performance level scores on the RIT scale that would indicate a good chance of success on this test Three methodologies linear regression second order regression and Rasch status on standards called Rasch SOS were used to derive estimates of cut scores In each case the most accurate of the three estimates was used to arrive at the recommended cut score seen in this report The authors estimated cut scores for each of the performance levels at grades three four and five for reading Contains 2 figures

and 4 tables      Aligning the NWEA RIT Scale with the Maine Educational Assessments (MEA) John Cronin,2004 Recently Northwest Evaluation Association NWEA completed a project to connect the scale of the MEA with NWEA s RIT scale Six Maine school systems participated in the study using test information from a group of over 800 students enrolled in fourth and eighth grade who took both the MEA and NWEA reading and mathematics tests in the spring of 2004 Information from these tests was used in a comprehensive study to identify the capacity of the RIT scale to predict success on the MEA and to identify performance level scores on the RIT scale that would indicate a good chance of success on this test Three methodologies linear regression second order regression and Rasch status on standards called Rasch SOS were used to derive estimates of cut scores In each case the most accurate of the three estimates was used to arrive at the recommended cut score seen in this report Cut scores were estimated for each of the performance levels at grades four and eight for reading and mathematics Contains 4 tables and 2 figures      A Study of the Ongoing Alignment of the NWEA RIT Scale with the South Carolina Palmetto Achievement Challenge Tests (PACT) John Cronin,2004 This study investigated the relationship between the scales used for the Palmetto Achievement Challenge Tests PACT assessments and the RIT scales used to report performance on Northwest Evaluation Association tests The RIT scale was developed using Rasch scaling methodologies RIT based tests are used to inform a variety of educational decisions at the district school and classroom level They are also used to monitor academic growth of students and cohorts Districts choose whether to include these assessments in their local assessment programs The study determined the reading language usage and mathematics RIT score equivalents for the PACT performance levels in English Language Arts and Mathematics Test records for more than 22 000 students were included in this study The current study of the PACT was undertaken in an effort to monitor the accuracy and stability of NWEA estimated cut scores relative to these tests In addition the scope of this study has been expanded to include estimation of cut scores in language usage that would correspond to each proficiency level on the English Language Arts portion of the PACT Contains 18 tables and 5 figures      **NWEA Map Test Preparation - Grade 6 Life Science** James W Alexander,2023-12-25 The NWEA MAP Measures of Academic Progress test is an adaptive assessment that is designed to measure student growth and progress in a variety of subject areas The test is taken by millions of students across the United States and is widely used by educators to help inform instruction and measure student outcomes The NWEA MAP test is administered online and provides immediate feedback on student performance allowing teachers to adjust their teaching strategies and provide targeted support to individual students Effective preparation for the MAP Test involves a combination of understanding the test format mastering content knowledge and developing test taking strategies This test prep book is designed to provide students with comprehensive guidance on each content area offering targeted instruction and practice questions to build confidence and ensure success Additionally the book includes test taking tips and strategies to help students approach the test with a calm and focused mindset By working through this book and dedicating time to consistent

practice students will be well equipped to excel on the MAP Test and achieve their academic goals This book focuses on grade 6 life science however it is suggested that students look beyond their grade expectations in order to excel in the test Also note that science in the MAP test is tested over 3 areas physical science life science and earth and space science It is recommended that students practice across all 3 areas in order to maximize results     *Preparation for the NWEA MAP Test* ,2024 This book contains 300 questions to prepare your student for the NWEA MAP testing assessment This book is not affiliated with nor endorsed by NWEA front cover
