An Investigation Into the Comparability of Two Tests of English as a Foreign Language Lyle F. Bachman, 1995-03-16 This book documents a major study comparing the Cambridge First Certificate in English FCE with the Test of English as a Foreign Language TOEFL to investigate similarities in test content candidature and use While both tests were designed to measure many of the same abilities they represent radically different approaches to language test development reflecting deeper differences between educational measurement traditions in the US and UK The thorough investigation of the fundamental characteristics and operational utility of two of the most widely used English tests for foreign students makes this study a valuable contribution to language testing research As such it will be of considerable interest to language testing specialists and examination boards as well as to academic researchers and graduate students in the field of language assessment more generally

Secondary School Selection P.E. Vernon,2017-09-13 Selection for secondary education at 11 plus still arouses widespread controversy and the psychological techniques which are employed such as intelligence and attainments tests are often criticised

Originally published in 1957 under the auspices of the British Psychological Society a group of psychologists experienced in this field tried to present a balanced survey of the situation at the time They show that the real problems of secondary schooling cannot be solved by simple administrative changes they arise from historical causes from the class structure of English society and the educational and vocational ambitions of parents Psychology has studied the development and differentiation of children s abilities and interests with age and thus throws light on the need for and the consequences of streaming children in different classes or schools and the value of alternative systems such as the comprehensive school Selection at 11 plus it is admitted does have harmful effects on teaching in the junior school and produces much emotional strain though these effects are often exaggerated It was in fact accurate for some ninety per cent of children yet the implications of its inevitable inaccuracy for some pupils cannot be ignored The functions and the value of intelligence and attainments tests and the essay are examined and full consideration given to the use of teachers estimates of suitability and other techniques The Report is addressed primarily to teachers educational administrator and psychologists that is people

with some background knowledge of the problems involved but it should also be intelligible and helpful to the educated layman since the more technical details are confined to Appendices
