Occupy Three Inquiries In Disobedience Trios:

Occupy W.J.T. Mitchell, Bernard E. Harcourt, Michael Taussig, 2024-05-31 Mic check Mic check Lacking amplification in Zuccotti Park Occupy Wall Street protestors addressed one another by repeating and echoing speeches throughout the crowd In Occupy W J T Mitchell Bernard E Harcourt and Michael Taussig take the protestors lead and perform their own resonant call and response playing off of each other in three essays that engage the extraordinary Occupy movement that has swept across the world examining everything from self immolations in the Middle East to the G8 crackdown in Chicago to the many protest signs still visible worldwide You break through the screen like Alice in Wonderland Taussig writes in the opening essay and now you can t leave or do without it Following Taussig s artful blend of participatory ethnography and poetic meditation on Zuccotti Park political and legal scholar Harcourt examines the crucial difference between civil and political disobedience He shows how by effecting the latter by rejecting the very discourse and strategy of politics Occupy Wall Street protestors enacted a radical new form of protest Finally media critic and theorist Mitchell surveys the global circulation of Occupy images across mass and social media and looks at contemporary works by artists such as Antony Gormley and how they engage the body politic ultimately examining the use of empty space itself as a revolutionary monument Occupy stands not as a primer on or an authoritative account of 2011 s revolutions but as a snapshot a second draft of history beyond journalism and the polemics of the moment an occupation itself Citizenship, Activism and the City Patricia Burke

Wood, 2017-04-21 Were the occupations of 2010 11 from Spain to Tahrir Square to Occupy Wall Street a success or failure Are they the model for urban radical politics This book challenges common understandings and underlying assumptions of what constitutes activism and resistance It proposes a critical urban theory of politics and citizenship that is grounded in the city as it is inhabited For those who are marginalized the city is a double edged sword of oppression and emancipation This book argues for an intersectional approach that actively dismantles hierarchies and embraces a wider range of acts of resistance and creative transformation one in which we recognize these acts of citizenship as a form of constitutionalism Wood reframes the theorization of protest and of the city post political literature and the history of protest and Marxist and anarchist ideas about the time and space of politics Through this she adopts a unique approach to provide new theoretical insights and challenges to post political thinking This book will be valuable reading for those interested in political urban and social geography in addition to political economy and progressive politics in the urban context **Visual Protest, Viral**

Images, and Virtual Participation Nicole A. Schneider, 2025-06-30 This interdisciplinary study sees press photographs of the BLM Movement in the US as agents for Black liberation Close reading both the images and theoretical considerations on Blackness photography and the often intangible articulations of racism in today s society the book focuses on the work the photographs do for the movement as they politically garner attention and create discursive places historically unsettle seemingly fixed narratives about the African American past and virtually establish room for digital activist debate Based on

Azoulay's event of photography and Rancière's politics of aesthetics it builds the theory of an attentive reading of photography and addresses the larger frameworks of photography as event in anti racist considerations In their political aesthetic and performative dimensions these photographs negotiate the current matter of Black lives in the United States and articulate ontological dimensions of Blackness as political struggle and affirmative position They become mobile and material discursive places that lift the protested debates into wider fields of consideration and visibility complicating notions of society politics and interaction

The Cambridge Companion to Civil Disobedience William E.

Scheuerman, 2021-07-15 Outlines the theory and practice of civil disobedience helping to understand how it is operating in the current turbulent conditions

Atenco Lives! Livia K. Stone, 2021-04-30 The People's Front in Defense of Land of

Atenco the Frente is an emblematic force in contemporary Mexican politics and in anti capitalist anti neoliberal activist networks throughout the world Best known for years of resistance against the encroachment of a government airport project on communal farmland the Frente also became international news when its members were subject to state violence rape and intimidation in a brutal government crackdown in 2006 Through it all documentary filmmaking has been one aspect of the Frente and its allies efforts The contradictions and difficulties of this moral and political project emerge in the day to day experiences of local national and international filmmakers and film distributors seeking to participate in the social movement Stone highlights the importance of how the circulation of the physical videos and not just their content promotes the social movement More broadly she shows how videographers perform their activism navigating the tensions between neoliberal personhood or ego and an ethos of compadrismo that privileges community Grounded in the lived experiences of Atenco's activists and allied filmmakers *Atenco Lives* documents the making and circulating of films as an ethical and political practice purposefully used to transform human relationships

De la indignación a la regeneración democrática Belmonte García,

Olga, 2014-03-03 La indignación nace como una respuesta ante una realidad que se considera injusta Tras ella podemos reconocer una determinada concepción de la justicia y de lo que debería ser un Estado democrático En este libro nos asomamos a un fenómeno social que en los últimos años ha denunciado y se alado las grietas de nuestro sistema pero no con la intención de contribuir únicamente a la crítica tan presente y abundante en estos días sino con el deseo de animar a la regeneración de nuestra democracia En qué medida puede la actitud de los ciudadanos contribuir a una regeneración democrática Estamos dispuestos a transformar la indignación en una actitud de compromiso por la justicia Nada cambiar externamente sin una transformación interna de nuestra actitud democrática Qué entendemos por democracia Se trata de una meta ya alcanzada o de un horizonte inalcanzable La democracia es lo que nosotros queramos hacer de ella La actitud de los ciudadanos es fundamental para que la democracia no degenere pero también para que pueda haber una transformación del sistema Para obrar moralmente no basta con cumplir la ley No podemos depositar nuestra responsabilidad individual en el Estado pues qué ocurriría si las leyes fuesen injustas Y por otro lado de nada serviría vivir en un Estado perfecto con leyes

justas si no hay ciudadanos que est n dispuestos a cumplirlar El objetivo de esta obra colectiva es encontrar juntos caminos para que nuestra indignaci n se traduzca en un compromiso real por la regeneraci n democr tica Nothing Marcus Boon,Timothy Morton,Eric Cazdyn,2024-05-31 Though contemporary European philosophy and critical theory have long had a robust engagement with Christianity there has been no similar engagement with Buddhism a surprising lack given Buddhism s global reach and obvious affinities with much of Continental philosophy This volume fills that gap focusing on nothing essential to Buddhism of course but also a key concept in critical theory from Hegel and Marx through deconstruction queer theory and contemporary speculative philosophy Through an elaboration of emptiness in both critical and Buddhist traditions an examination of the problem of praxis in Buddhism Marxism and psychoanalysis and an explication of a Buddhaphobia that is rooted in modern anxieties about nothingness Nothing opens up new spaces in which the radical cores of Buddhism and critical theory are renewed and revealed *Demonstrative Reproduktion* Johannes Diesing,2019-10-09 Die Occupy Bewegung verbreitete sich ab Herbst 2011 global und bildete damit den H hepunkt eines protestreichen Jahres Anhand der Platzbesetzungen in New York und London arbeitet der Band die neue Form des politischen Handelns heraus die aus die im kollektiven Experimentieren entstandene Praxis der Demonstrativen Reproduktion Diese gewann f r die Aktivistinnen und Aktivisten der Bewegung eine gr ere Bedeutung f r ihren politischen Protest als konkrete Forderungen an Regierung Parteien und Wirtschaft Authoritarianism Wendy Brown,Peter E. Gordon,Max Pensky,2022-12-22 Three distinguished scholars draw on critical theory to address the causes and circumstances behind the rise of autocracies and oligarchies Across the Euro Atlantic world political leaders have been mobilizing their bases with nativism racism xenophobia and paeans to traditional values in brazen bids for electoral support How are we to understand this move to the mainstream of political policies and platforms that lurked only on the far fringes through most of the postwar era Does it herald a new wave of authoritarianism Is liberal democracy itself in crisis In this volume three distinguished scholars draw on critical theory to address our current predicament Wendy Brown Peter E Gordon and Max Pensky share a conviction that critical theory retains the power to illuminate the forces producing the current political constellation as well as possible paths away from it Brown explains how freedom has become a rallying cry for manifestly un emancipatory movements Gordon dismantles the idea that fascism is rooted in the susceptible psychology of individual citizens and reflects instead on the broader cultural and historical circumstances that lend it force and Pensky brings together the unlikely pair of Tocqueville and Adorno to explore how democracies can buckle under internal pressure These incisive essays do not seek to smooth over the irrationality of the contemporary world and they do not offer the false comforts of an easy return to liberal democratic values Rather the three authors draw on their deep engagements with nineteenth and twentieth century thought to investigate the historical and political contradictions that have brought about this moment offering fiery and urgent responses to the demands of the day A brilliant and urgent assessment of democracy s

current crisis and capitalism's increasing authoritarianism a profound diagnosis of this moment's political ills Astra Taylor author of *Democracy May Not Exist but We'll Miss It When It's Gone* **Excommunication** Alexander R. Galloway, Eugene Thacker, McKenzie Wark, 2022-12-22 Always connect that is the imperative of today's media But what about those moments when media cease to function properly when messages go beyond the sender and receiver to become excluded from the world of communication itself those messages that state There will be no more messages In this book Alexander R Galloway Eugene Thacker and McKenzie Wark turn our usual understanding of media and mediation on its head by arguing that these moments reveal the ways the impossibility of communication is integral to communication itself instances they call excommunication In three linked essays *Excommunication* pursues this elusive topic by looking at mediation in the face of banishment exclusion and heresy and by contemplating the possibilities of communication with the great beyond First Galloway proposes an original theory of mediation based on classical literature and philosophy using Hermes Iris and the Furies to map out three of the most prevalent modes of mediation today mediation as exchange as illumination and as network Then Thacker goes boldly beyond Galloway's classification scheme by examining the concept of excommunication through the secret link between the modern horror genre and medieval mysticism Charting a trajectory of examples from H P Lovecraft to Meister Eckhart Thacker explores those instances when one communicates or connects with the inaccessible dubbing such modes of mediation haunted or weird to underscore their inaccessibility Finally Wark evokes the poetics of the infuriated swarm as a queer politics of heresy that deviates from both media theory and the traditional left He posits a critical theory that celebrates heresy and that is distinct from those that now venerate Saint Paul Reexamining commonplace definitions of media mediation and communication *Excommunication* offers a glimpse into the realm of the nonhuman to find a theory of mediation adequate to our present condition **The Neighbor** Slavoj Žižek, Eric L. Santner, Kenneth Reinhard, 2013-07-12 In *Civilization and Its Discontents* Freud made abundantly clear what he thought about the biblical injunction first articulated in Leviticus 19:18 and then elaborated in Christian teachings to love one's neighbor as oneself Let us adopt a naive attitude towards it he proposed as though we were hearing it for the first time we shall be unable then to suppress a feeling of surprise and bewilderment After the horrors of World War II the Holocaust and Stalinism Leviticus 19:18 seems even less conceivable but all the more urgent now than Freud imagined In *The Neighbor* three of the most significant intellectuals working in psychoanalysis and critical theory collaborate to show how this problem of neighbor love opens questions that are fundamental to ethical inquiry and that suggest a new theological configuration of political theory Their three extended essays explore today's central historical problem the persistence of the theological in the political In *Toward a Political Theology of the Neighbor* Kenneth Reinhard supplements Carl Schmitt's political theology of the enemy and friend with a political theology of the neighbor based in psychoanalysis In *Miracles Happen* Eric L Santner extends the book's exploration of neighbor love through a bracing reassessment of Benjamin and Rosenzweig And in an impassioned plea

for ethical violence Slavoj i ek s Neighbors and Other Monsters reconsiders the idea of excess to rehabilitate a positive sense of the inhuman and challenge the influence of Levinas on contemporary ethical thought A rich and suggestive account of the interplay between love and hate self and other personal and political The Neighbor has proven to be a touchstone across the humanities and a crucial text for understanding the persistence of political theology in secular modernity This new edition contains a new preface by the authors

Ekklesia Paul Christopher Johnson, Pamela E. Klassen, Winnifred Fallers Sullivan, 2018-03-13 Ekklesia Three Inquiries in Church and State offers a New World rejoinder to the largely Europe centered academic discourse on church and state In contrast to what is often assumed in the Americas the relationship between church and state has not been one of freedom or separation but one of unstable and adaptable collusion Ekklesia sees in the settler states of North and South America alternative patterns of conjoined religious and political power patterns resulting from the undertow of other gods other peoples and other claims to sovereignty These local challenges have led to a continuously contested attempt to realize a church minded state a state minded church and the systems that develop in their concert The shifting borders of their separation and the episodic conjoining of church and state took new forms in both theory and practice The first of a closely linked trio of essays is by Paul Johnson and offers a new interpretation of the Brazilian community gathered at Canudos and its massacre in 1896-97 carried out as a joint churchstate mission and spectacle In the second essay Pamela Klassen argues that the colonial churchstate relationship of Canada came into being through local and national practices that emerged as Indigenous nations responded to and resisted becoming possessions of colonial British America Finally Winnifred Sullivan s essay begins with reflection on the increased effort within the United States to ban Bibles and scriptural references from death penalty courtrooms and jury rooms she follows with a consideration of the political theological pressure thereby placed on the jury that decides between life and death Through these three inquiries Ekklesia takes up the familiar topos of church and state in order to render it strange
