

A Students Guide to Tactical Folding Knife Selection, Carry & Deployment By Chris Fry

I am often asked by students and friends what I think is the best knife to carry for personal defense. The vast majority of time I recommend a small fixed blade knife (SFB) of 2-4 inches length. This suggestion is heavily dependent upon the individual's lifestyle, job or unique circumstances. In timed drills comparing the deployment of folders vs. small fixed blades set up for in-fight weapon access the SFB beat the tactical folder almost every time. This is simply because the SFB eliminates one whole step in the deployment process; the fine motor skill of having to open the folding knife.

SFB Examples
Not particularly lengthy
blades but more than
capable of inflicting
severe damage at extreme
close quarters.

Sadly, many people believe that carrying a fixed blade knife for personal defense is either too difficult to conceal or looks too "aggressive". Because of these or other reasons a larger percentage of citizens, Law Enforcement Officers, Corrections and off duty military personnel carry a tactical folding knife. Thus, the focus of this article will be on selection and deployment of tactical folding knives (TFK) for personal defense purposes.
