Meat A Benign Extravagance:

Meat Simon Fairlie, 2010 Meat a benign extravagance is an exploration of the difficult environmental and ethical issues that surround the human consumption of animal flesh The world s meat consumption is rapidly rising leading to devastating environmental impacts as well as having long term health implications for societies everywhere Simon Fairlie s book lays out the reasons why we must decrease the amount of meat we eat both for the planet and for ourselves At its heart the book argues however that the farming of animals for consumption has become problematic because we have removed ourselves physically and spiritually from the land Our society needs to reorientate itself back to the land and Simon explains why an agriculture that is most readily able to achieve this is one that includes a measure of livestock farming Publisher Meat Simon Fairlie, 2011 Bovine Medicine Peter Cockcroft, 2015-04-10 Diese sorgf ltig bearbeitete 3 Auflage pr sentiert die j ngsten Neuerungen in dem Fachgebiet Veterin re f r Nutztiere und Studenten der Tiermedizin finden in diesem Referenzwerk alles Wissenswerte rund um moderne Verfahren zur Gesunderhaltung und Haltung von Rindern Neuauflage dieses Klassikers sorgf ltig bearbeitet und jetzt mit Schwerpunkt auf den wichtigsten allt glichen Aspekten zu Rindergesundheit und haltung Konzentriert sich unter anderem erstmals auf praktische Fertigkeiten und den Wissenstransfer und enth lt weitaus mehr farbige Illustrationen als die fr heren Ausgaben Vermittelt wichtige Kompetenzen f r die Praxis um auf heutige Anforderungen an die Rindergesundheit und haltung ad quat zu reagieren Verbindet nahtlos alles Wissenswerte zu Haltung F tterung und Krankheiten Autoren sind Fachexperten aus aller Welt *The Ethical Carnivore* Louise Gray, 2016-09-22 WINNER OF TWO 2017 GUILD OF FOOD WRITERS AWARDS BEST FOOD BOOK AWARD AND THE CAMPAIGNING AND INVESTIGATIVE FOOD WORK AWARD SHORTLISTED FOR THE 2017 FORTNUM MASON FOOD BOOK OF THE YEAR A BBC RADIO 4 FOOD PROGRAMME BOOK OF THE YEAR 2016 A GUARDIAN BOOK OF THE YEAR 2016 We should all know exactly where our meat comes from But what if you took this modern day maxim to its logical conclusion and only ate animals you killed yourself Louise Gray decides to be an ethical carnivore and learn to stalk shoot and fish Starting small Louise shucks oysters and catches a trout As she begins to reconnect with nature she befriends countrymen and women who can teach her to shoot pigeons rabbits and red deer Louise begins to look into how meat is processed including the beef in our burgers cheap chicken supermarket bacon and farmed fish She investigates halal slaughter and visits abattoirs to ask whether new technology can make eating meat more humane Delving into alternative food cultures Louise finds herself sourcing roadkill and cooking a squirrel stir fry and she explores eating other sources of protein like in vitro meat insects and plant based options With the global demand for meat growing Louise argues that eating less meat should be an essential part of fighting climate change for all of us Her writing on nature food and the environment is full of humour while never shying from the hard facts Louise gets to the heart of modern anxieties about where our meat comes from asking an important question for our time is it possible to be an ethical carnivore **Critical Animal and**

Media Studies Núria Almiron, Matthew Cole, Carrie P. Freeman, 2015-10-14 This book aims to put the speciesism debate and the treatment of non human animals on the agenda of critical media studies and to put media studies on the agenda of animal ethics researchers Contributors examine the convergence of media and animal ethics from theoretical philosophical discursive social constructionist and political economic perspectives The book is divided into three sections foundations representation and responsibility outlining the different disciplinary approaches application to media studies and covering how non human animals and the relationship between humans and non humans are represented by the mass media concluding with suggestions for how the media as a major producer of cultural norms and values related to non human animals and how we treat them might improve such representations

The Ethics of Eating Animals Bob Fischer, 2019-09-05 Intensive animal agriculture wrongs many many animals Philosophers have argued on this basis that most people in wealthy Western contexts are morally obligated to avoid animal products This book explains why the author thinks that s mistaken He reaches this negative conclusion by contending that the major arguments for veganism fail they don t establish the right sort of connection between producing and eating animal based foods Moreover if they didn t have this problem then they would have other ones we wouldn t be obliged to abstain from all animal products but to eat strange things instead e g roadkill insects and things left in dumpsters On his view although we have a collective obligation not to farm animals there is no specific diet that most individuals ought to have Nevertheless he does think that some people are obligated to be vegans but that s because they ve joined a movement or formed a practical identity that requires that sacrifice This book argues that there are good reasons to make such a move albeit not ones strong enough to show that everyone must do likewise

The Oxford Handbook of Food Ethics Anne Barnhill, Tyler Doggett, Mark Budolfson, 2018-01-08 Academic food ethics incorporates work from philosophy but also anthropology economics the environmental sciences and other natural sciences geography law and sociology Scholars from these fields have been producing work for decades on the food system and on ethical social and policy issues connected to the food system Yet in the last several years there has been a notable increase in philosophical work on these issues work that draws on multiple literatures within practical ethics normative ethics and political philosophy This handbook provides a sample of that philosophical work across multiple areas of food ethics conventional agriculture and alternatives to it animals consumption food justice food politics food workers and food and identity

The ^AOxford Handbook of Land Politics Saturnino M. Borrás, Jennifer C. Franco, 2025-08-29 Access to land in all its multiple meanings is necessarily diverse complex and contentious and facilitating and maintaining such access constitutes a mosaic of social relations and institutional

instruments rather than the minimalist and simplistic reduction of land to land property that in turn tends to be interpreted always as individual private property The Oxford Handbook of Land Politics offers heterodox analytical tools to help the reader make sense of the complexity of the politics of land *Routledge Handbook of Sustainable and Regenerative Food Systems* Jessica Duncan, Michael Carolan, Johannes S.C. Wiskerke, 2020-08-13 This handbook includes contributions from established and emerging scholars from around the world and draws on multiple approaches and subjects to explore the socio economic cultural ecological institutional legal and policy aspects of regenerative food practices The future of food is uncertain We are facing an overwhelming number of interconnected and complex challenges related to the ways we grow distribute access eat and dispose of food Yet there are stories of hope and opportunities for radical change towards food systems that enhance the ability of living things to co evolve Given this activities and imaginaries looking to improve rather than just sustain communities and ecosystems are needed as are fresh perspectives and new terminology The Routledge Handbook of Sustainable and Regenerative Food Systems addresses this need The chapters cover diverse practices geographies scales and entry points They focus not only on the core requirements to deliver sustainable agriculture and food supply but go beyond this to think about how these can also actively participate with social ecological systems The book is presented in an accessible way with reflection questions meant to spark discussion and debate on how to transition to safe just and healthy food systems Taken together the chapters in this handbook highlight the consequences of current food practices and showcase the multiple ways that people are doing food differently The Routledge Handbook of Sustainable and Regenerative Food Systems is essential reading for students and scholars interested in food systems governance and practices agroecology rural sociology and socio environmental studies **Sitopia** Carolyn Steel, 2020-03-05 A visionary look at how quality food should replace money as the new world currency Tim Spector Hugely ambitious and beautifully written destined to become a modern classic Bee Wilson How we search for make and consume food has defined human history It transforms our bodies and homes our politics and our trade our landscapes and our climate But by forgetting our culinary heritage and relying on cheap intensively produced food we have drifted into a way of life that threatens our planet and ourselves What if there were a more sustainable way to eat and live Drawing on many disciplines as well as stories of the farmers designers and economists who are remaking our relationship with food this inspiring and deeply thoughtful book gives us a provocative and exhilarating vision for change and points the way to a better future Utterly brilliant Thomasina Miers WINNER OF THE 2021 GUILD FOOD OF WRITERS AWARD FOR BEST FOOD BOOK Shortlisted for the Wainwright Prize 2020 [From Field to Fork](#) Paul B. Thompson, 2015-05-08 After centuries of neglect the ethics of food are back with a vengeance Justice for food workers and small farmers has joined the rising tide of concern over the impact of industrial agriculture on food animals and the broader environment all while a global epidemic of obesity related diseases threatens to overwhelm modern health systems An emerging worldwide social movement has turned to local and organic foods and

struggles to exploit widespread concern over the next wave of genetic engineering or nanotechnologies applied to food Paul B Thompson's book applies the rigor of philosophy to key topics in the first comprehensive study explore interconnections hidden deep within this welter of issues Bringing to bear more than thirty years of experience working closely with farmers agricultural researchers and food system activists he explores the eclipse of food ethics during the rise of nutritional science and examines the reasons for its sudden re emergence in the era of diet based disease Thompson discusses social injustice in the food systems of developed economies and shows how we have missed the key insights for understanding food ethics in the developing world His discussions of animal production and the environmental impact of agriculture break new ground where most philosophers would least expect it By emphasizing the integration of these issues Thompson not only brings a comprehensive philosophical approach to moral issues in the production processing distribution and consumption of food he introduces a fresh way to think about practical ethics that will have implications in other areas of applied philosophy

Sustainable Diets Pamela Mason, Tim Lang, 2017-03-27 How can huge populations be fed healthily equitably and affordably while maintaining the ecosystems on which life depends The evidence of diet's impact on public health and the environment has grown in recent decades yet changing food supply consumer habits and economic aspirations proves hard This book explores what is meant by sustainable diets and why this has to be the goal for the Anthropocene the current era in which human activities are driving the mismatch of humans and the planet Food production and consumption are key drivers of transitions already underway yet policy makers hesitate to reshape public eating habits and tackle the unsustainability of the global food system The authors propose a multi criteria approach to sustainable diets giving equal weight to nutrition and

public health the environment socio cultural issues food quality economics and governance This six pronged approach to sustainable diets brings order and rationality to what either is seen as too complex to handle or is addressed simplistically and ineffectually The book provides a major overview of this vibrant issue of interdisciplinary and public interest It outlines the reasons for concern and how actors throughout the food system governments producers civil society and consumers must engage with un sustainable diets

Instant Insights: Optimising pig nutrition Professor Robert van Barneveld, Robert J. E. Hewitt, Darryl N. D'Souza, Dr Sam Millet, Nadia Everaert, Dr Barbara U. Metzler-Zebeli, Charlotte Lauridsen, J. Jacques Matte, Dr Marta López-Alonso, Dr Marco García-Vaquero, Prof Marta Miranda, 2023-04-18 This collection features five peer reviewed reviews on optimising pig nutrition The first chapter considers advances in nutritional requirements and metabolism and how these contribute to the sustainable production of pig meat including the need to maintain sow body condition throughout gestation and lactation and ways of reducing variation in pork production systems The second chapter discusses the essential contribution of balanced energy and protein levels in achieving optimal health in pigs It includes a case study which illustrates how characteristics of feed form and structure may have contradictory impacts on the gastric health and performance of pigs The third chapter summarises current knowledge on the effects of prebiotic oligosaccharides on porcine gut function and health focussing on the effects on gut functions in the early postnatal phase The fourth chapter addresses recent advances in understanding the role of vitamins in porcine diets It outlines their importance for some aspects of oxidative mechanisms including the development and competence of the immune system The final chapter summarises the nutritional attributes of macroalgae in terms of macro and micronutrients as a source of protein and other compounds in pig nutrition

Our Children and Other Animals Matthew Cole, Kate Stewart, 2016-05-23 Focusing on the socialization of the human use of other animals as resources in contemporary Western society this book explores the cultural reproduction of human nonhuman animal relations in childhood With close attention to the dominant practices through which children encounter animals and mainstream representations of animals in children s culture whether in terms of the selective exposure of children to animals as pets or as food in the home or in school or the representation of animals in mass media and social media Our Children and Other Animals reveals the interconnectedness of studies of childhood culture and human animal relations In doing so it establishes the importance of human animal relations in sociology by describing the sociological importance of animals in children s lives and children in animals lives Presenting a new typology of the various kinds of human animal relationship this conceptually innovative book constitutes a clear demonstration of the relevance of sociology to the interdisciplinary field of human animal relations and will appeal to readers across the social sciences with interests in sociology childhood studies cultural and media studies and human animal interaction

Proteins: Sustainable Source, Processing and Applications Charis M. Galanakis, 2019-05-30 Proteins Sustainable Source Processing and Applications addresses sustainable proteins with an emphasis on proteins of animal origin plant based and insect proteins

Donovan,2013-09-11 The changing economic environment for the consumer that is emerging from the wreckage of the financial credit crunch plays directly into the importance of food spending This is certainly true from the perspective of food prices in the short run but also from the perspective of sustainability and reducing the impact of the environmental credit crunch The economic changes we experience now have a bearing on our ability to manage the environmental credit crunch that looms Food Policy and the Environmental Credit Crunch From Soup to Nuts elaborates on the issues addressed in the authors first book From Red to Green and asks whether the financial credit crunch could ameliorate or exacerbate the emergent environmental credit crunch The conclusion drawn here is that a significant and positive difference could be made by changing some of the ways in which we procure prepare and consume our food Written by an economist and an investment professional this book addresses the economic and environmental implications of how we treat food The book examines each aspect of the food chain from agriculture to production and processing retail preparation consumption and waste **Taking Stock** Roger Morgan-Grenville,2022-06-16 Funny insightful and hugely informative a charming book

DAILY MAIL Tremendous We all need to take stock and this is the ideal starting point I learnt a lot from this book and laughed a lot too ROSAMUND YOUNG author of The Secret Life of Cows Since highland cattle ransacked his grandmother s vegetable patch when he was six Roger Morgan Grenville has been fascinated by cows So at the age of 61 with no farming experience he signed on as a part time labourer on a beef cattle farm to tell their side of the story The result is this lyrical and evocative book For 10 000 years cow and human lives have been intertwined Cattle have existed alongside us fed and shod us quenched our thirst and provided a thousand other tiny services and yet most of us know little about them We are also blissfully unaware of the de natured lives we often ask them to lead Part history part adventure and part unsentimental manifesto for how we should treat cows in the 21st century Taking Stock asks us to think carefully about what we eat and to let nature back into food production
