Mexico En Llamas El Legado De Calderon:

México en Llamas: el legado de Calderón Anabel Hernández, 2012-12-01 Tras el rotundo éxito obtenido con *Los señores del narco* Anabel Hernández nos entrega un libro clave para entender el legado que deja Felipe Calderón quien será recordado de acuerdo con la periodista como el presidente del exterminio. México en llamas el legado de Calderón constituye una indispensable revisión crítica y una rigurosa denuncia de los casos más escandalosos de corrupción y complicidad política del llamado sexenio de la muerte donde destacan nombres tan diversos como Manuel Bribiesca Sahagún Genaro García Luna Guillermo Galván Galván Mario Arturo Acosta Chaparro Isabel Miranda de Wallace y Carlos Salinas de Gortari. Felipe Calderón Hinojosa asegura Anabel Hernández ser recordado por los cinco principales legados de su gobierno: el infinito poder del narcotraficante Joaquín El Chapo Guzmán el asesinato impune de más de 60 mil personas víctimas de la llamada guerra contra el narcotráfico la destrucción de su partido político el PAN un México controlado por criminales grupos de criminales y brigadas de mercenarios y el regreso del PRI a Los Pinos. Para la periodista los resultados de la estrategia fallida del panista son palpables: el incremento acelerado en el consumo y la producción de estupefacientes así como la penetración del crimen organizado en las instituciones encargadas de brindar seguridad e impartir justicia: el Ejército la Marina la SSP la PGR y el Poder Judicial ni una sola se ha librado del escándalo. El propósito fundamental de esta obra es informar a la sociedad y darle elementos para exigir justicia. Al fin de cuentas explica la autora la única forma de mantener nuestra esperanza en un futuro mejor de que podamos desterrar este México de muerte e impunidad es asegurarnos de que lo que ocurrió durante estos últimos seis años no se repita.

Documenting Violence in Calderón's Mexico Jessica Wax-Edwards, 2023 An analysis of how artists filmmakers and affected citizens in Mexico attempted to navigate articulate and contend with the unparalleled escalation in brutality during the presidency of Felipe Calderón 2006 2012. In Mexico during the presidency of Felipe Calderón 2006 2012 and as a direct result of his war on drugs at least 60 000 people were killed tens of thousands were disappeared and countless more were subjected to kidnapping and sexual violence. This book analyses how artists and filmmakers alongside affected citizens attempted to navigate articulate and contend with this unparalleled escalation in brutality. The texts studied here provide a critical visual archive of this first phase in the drug war and show how artists including Pedro Pardo Fernando Brito Mónica González and Natalia Almada attempted to challenge official narratives foster emerging nodes of resistance and seek justice for citizens. Bringing together works of photography photojournalism documentary and short fiction cinema the book argues for the vital role of cultural production in documenting institutional corruption human rights abuses and narco related violence in Mexican society and providing a space to grieve and remember the victims. As Mexico's socio political landscape continues to deteriorate the book shows how its visual cultural legacy provides a means of understanding and responding to the violence.

Performance in the Zócalo Ana Martínez, 2020-10-01 For more than five centuries the Plaza Mayor or Zócalo in Mexico City has been the site of performances for a public spectatorship. During the

period of colonial rule performances designed to ensure loyalty to the Spanish monarchy were staged there but over time these displays gave way to staged demonstrations of resistance Today the Z calo is a site for both official government sponsored celebrations and performances that challenge the state Performance in the Z calo examines the ways that this city square has achieved symbolic significance over the centuries and how national ethnic and racial identity has been performed there A saying in Mexico City is *quien domina el centro domina el pa s* whoever dominates the center dominates the country as the Z calo continues to act as the performative embodiment of Mexican society This book highlights how particular performances build upon each other by recycling past architectures and performative practices for new purposes Ana Mart nez discusses the singular role of collective memory in creating meaning through space and landmarks providing a new perspective and further insight into the problem of Mexico s relationship with its own past Rather than merely describe the commemorations she traces the relationship between space and the invention of a Mexican imaginary She also explores how indigenous communities Mexico s alienated subalterns performed as exploited objects exotic characters and subjects with agency The book s dual purposes are to examine the Z calo as Mexico s central site of performance and to unmask without homogenizing the official discourse regarding Mexico s natives This book will be of interest for students and scholars in theater studies Mexican Studies Cultural Geography Latinx and Latin American Studies

The Grammar of Civil War Will. Fowler, 2022-07 Unlike wars between nations wherein the population generally comes together to defend its borders and is united by a common national goal civil wars tear countries apart divide families and turn neighbors against each other Civil wars are a form of self harm in which a country s people seek redemption through self destruction punishing or severing those parts that are seen to have made the nation ill And yet civil wars with their characteristically appalling violence remain chillingly common defying the
