Nebraska State Publications Checklist, 1978 *Visual Diagnosis and Care of the Patient with Special Needs* Taub, Mary Bartuccio, Dominick M. Maino, 2012 Visual Diagnosis and Care of the Patient with Special Needs provides a thorough review of the eye and vision care needs of patients with special needs This book gives you a better understanding of the most frequently encountered developmental and acquired disabilities seen in the eye care practitioner's office These disabilities include patients with autism brain injury Fragile X syndrome and Down syndrome as well as those with psychiatric illness dual diagnosis and more The text discusses in great detail the visual issues inherent in these populations and their possible

treatment A group of authors with approximately 500 years of experience in the field of eye care and special populations have been brought together to develop this comprehensive reference It may appear that this book is written primarily for eye care practitioners such as optometrists and ophthalmologists while vision is the overriding topic this book serves as an excellent resource for a multitude of professions including those engaged in occupational therapy physical therapy speech and language therapy psychiatry social work pediatric medicine and special education

The Continuum of Stroke Care
 Joanne V. Hickey, Sarah Livesay, 2015-03-25 The Continuum of Stroke Care An Interprofessional Approach to Evidence Based Care will address the clinical care of stroke patients across the continuum of care from primary prevention of stroke the acute and subacute treatment of stroke syndromes through rehabilitation and reintegration into the community Each chapter will review current evidence based practice guiding clinical stroke care The book will address the American Stroke Association's Stroke Chain of Survival addressing prehospital care of the stroke patient and the development of stroke systems of care to provide all people in the United States access to acute stroke care Additionally the book will cover the current role of state legislation in stroke care and the evolution of hospital stroke certification The book will serve as a clinical resource providing detailed comprehensive medical and nursing care of all stroke subtypes while also addressing the system of stroke care in which medical nursing and interprofessional care provided As such the book will serve as a clinical resource to medical and nursing caregivers providing direct patient care as well as stroke coordinators program directors and other hospital administrators developing stroke programs The book will also be a clinical resource for stroke interprofessional team members such as physical therapists occupational therapists Stroke care is most successful at improving patient outcomes when delivered by an interdisciplinary team Each chapter will address the critical role of the interprofessional team and highlight comprehensive care of the stroke patient rather than focusing only on nursing care Books published to date focus solely on the medical or nursing care of the stroke patient without attention to the stroke system of care and the role of the multidisciplinary team in improving stroke outcomes Additionally each chapter will highlight ongoing research trials and opportunities with the recognition that the scientific foundation for acute stroke care is rapidly evolving
