Medieval Political Philosophy A Sourcebook Cornell Paperbacks:

Medieval Political Philosophy Joshua Parens, Joseph C. Macfarland, 2011 A new edition of the classic anthology of Christian Muslim and Jewish political philosophy in the Middle Ages *Oxford Studies in Medieval Philosophy* Peter King, Martin Pickavé, 2025-02-28 Oxford Studies in Medieval Philosophy showcases the best scholarly research in this flourishing field The series covers all aspects of medieval philosophy including the Latin Arabic and Hebrew traditions and runs from the end of antiquity into the Renaissance It publishes new work by leading scholars in the field and combines historical scholarship with philosophical acuteness The papers will address a wide range of topics from political philosophy to ethics and logic to metaphysics OSMF is an essential resource for anyone working in the area **Encyclopedia of Medieval Philosophy** Henrik Lagerlund, 2010-12-07 This is the first reference ever devoted to medieval philosophy It covers all areas of the field from 500 1500 including philosophers philosophies key terms and concepts It also provides analyses of particular theories plus cultural and social contexts *The Cambridge History of Medieval Political Thought C.350-c.1450* J. H. Burns, 1988 This volume examines the history of a complex and varied body of ideas over a period of more than a thousand years Religion and Practical Reason Frank E. Reynolds, David Tracy, 1994-10-25 This book contains programmatic essays that focus on broad ranging proposals for re envisioning a discipline of comparative philosophy of religions It also contains a number of case studies focussing on the interpretation of particular religious historical data from comparatively oriented philosophical perspectives Contemporary Perspectives on Revelation and Qu'ranic Hermeneutics Ali Akbar, 2019-11-27 A number of innovative hermeneutical approaches emerged in Muslim exegetical discourse in the second half of the 20th century Among these developments is a trend of systematic reform theology that emphasises a humanistic approach whereby revelation is understood to be dependent not only upon its initiator God but also upon its recipient Prophet Muhammad who takes an active role in the process Ali Akbar examines the works of four noted scholars of Islam Fazlur Rahman Pakistan Abdolkarim Soroush Iran Muhammad Mujtahed Shabestari Iran and Nasr Hamid Abu Zayd Egypt His study shows that the consequences of taking a humanistic approach to understanding revelation are not confined to the realm of speculation about God human relations but also to interpreting Qur'anic socio political precepts And the four scholars emerge as a distinctive group of Muslim thinkers who open up a new horizon in contemporary Islamic discourse **Leo Strauss on the Borders of Judaism, Philosophy, and History** Jeffrey A. Bernstein, 2015-05-05 Explores how the thought of Leo Strauss amounts to a model for thinking about the connection between philosophy Jewish thought and history In *Leo Strauss on the Borders of Judaism Philosophy and History* Jeffrey A Bernstein explores how the thought of Leo Strauss amounts to a model for thinking about the connection between philosophy Jewish thought and history For Bernstein Strauss shows that a close study of the history of philosophy from the ancients to medievals to moderns is necessary for one to appreciate the fundamental distinction between the forms of life Strauss terms Jerusalem and Athens that is order through revealed Law and free

philosophical thought respectively Through an investigation of Strauss's published texts examination of his intellectual biography and history and making use of correspondence archival materials and seminar transcripts Bernstein shows how Strauss's concern with the relation between Judaism and philosophy spanned his entire career His findings will be of use to those interested in the thought of Strauss the history of Jewish thought and the relation between religion philosophy and politics

Descartes on Causation Tad M. Schmaltz, 2013-01-31 This book is a systematic study of Descartes theory of causation and its relation to the medieval and early modern scholastic philosophy that provides its proper historical context The argument presented here is that even though Descartes offered a dualistic ontology that differs radically from what we find in scholasticism his views on causation were profoundly influenced by scholastic thought on this issue This influence is evident not only in his affirmation in the *Meditations* of the abstract scholastic axioms that a cause must contain the reality of its effects and that conservation does not differ in reality from creation but also in the details of the accounts of body-body interaction in his physics of mind-body interaction in his psychology and of the causation that he took to be involved in free human action In contrast to those who have read Descartes as endorsing the occasionalist conclusion that God is the only real cause a central thesis of this study is that he accepted what in the context of scholastic debates regarding causation is the antipode of occasionalism namely the view that creatures rather than God are the causal source of natural change What emerges from the defense of this interpretation of Descartes is a new understanding of his contribution to modern thought on causation

God and Logic in Islam John Walbridge, 2010-11-15 This book investigates the central role of reason in Islamic intellectual life Despite widespread characterization of Islam as a system of belief based only on revelation John Walbridge argues that rational methods not fundamentalism have characterized Islamic law philosophy and education since the medieval period His research demonstrates that this medieval Islamic rational tradition was opposed by both modernists and fundamentalists resulting in a general collapse of traditional Islamic intellectual life and its replacement by more modern but far shallower forms of thought However the resources of this Islamic scholarly tradition remain an integral part of the Islamic intellectual tradition and will prove vital to its revival The future of Islam Walbridge argues will be marked by a return to rationalism

Enlightening Revolutions Svetozar Minkov, Stéphane Douard, 2007-01-01 The essays collected in this volume make a serious enlightened contribution to the history of political philosophy While offering striking new interpretations of crucial texts and events in the history of the West they illuminate fundamental questions of politics religion and philosophy

Leo Strauss on Maimonides Leo Strauss, 2013-04-23 Leo Strauss is widely recognized as one of the foremost interpreters of Maimonides His studies of the medieval Jewish philosopher led to his rediscovery of esotericism and deepened his sense that the tension between reason and revelation was central to modern political thought His writings throughout the twentieth century were chiefly responsible for restoring Maimonides as a philosophical thinker of the first rank Yet to appreciate the extent of Strauss's contribution to the scholarship on Maimonides one has traditionally had to seek

out essays he published separately spanning almost fifty years With Leo Strauss on Maimonides Kenneth Hart Green presents for the first time a comprehensive annotated collection of Strauss s writings on Maimonides comprising sixteen essays three of which appear in English for the first time Green has also provided careful translations of materials that had originally been quoted in Hebrew Arabic Latin German and French written an informative introduction highlighting the original contributions found in each essay and brought references to out of print editions fully up to date The result will become the standard edition of Strauss s writings on Maimonides **Kinship, Law and Politics** Joseph E.

David,2020-07-02 Why are we so concerned with belonging In what ways does our belonging constitute our identity Is belonging a universal concept or a culturally dependent value How does belonging situate and motivate us Joseph E David grapples with these questions through a genealogical analysis of ideas and concepts of belonging His book transports readers to crucial historical moments in which perceptions of belonging have been formed transformed or dismantled The cases presented here focus on the pivotal role played by belonging in kinship law and political order stretching across cultural and religious contexts from eleventh century Mediterranean religious legal debates to twentieth century statist liberalism in Western societies With his thorough inquiry into diverse discourses of belonging David pushes past the politics of belonging and forces us to acknowledge just how wide ranging and fluid notions of belonging can be **The Mind That Is Catholic**

James V. Schall,2011-01-30 In this wide ranging collection of philosophical essays the acclaimed Catholic intellectual presents his vision of Catholic thought applied in the world In *The Mind That Is Catholic* political philosopher and Catholic intellectual James V Schall presents a retrospective collection of his academic and literary essays written in the past fifty years In these essays exploring topics from war to friendship philosophy politics and everyday living Schall exemplifies the Catholic mind at its best According to Schall the Catholic mind seeks to recognize a consistent and coherent relation between the solid things of reason and the definite facts of revelation It seeks to understand how they belong together each profiting from the other It respects what can be known by faith alone but does not exclude the intelligibility of what is revealed In these contemplative and insightful essays Schall shares a lifetime of study in political philosophy a wide ranging discipline and perhaps the most vital context in which reason and revelation meet Father James V Schall is one of the few renaissance men still among us His knowledge of various areas of reality and human endeavor is encyclopedic Kenneth Baker S J editor *Homiletic Pastoral Review* [Philosophy and the Abrahamic Religions](#) Rahim Acar,Bilal Bas,Torrance Kirby,2013-01-15

From Greco Roman Antiquity through to the European Enlightenment philosophy and religious thought were inseparably interwoven This was equally the case for the popular natural or pagan religions of the ancient world as it was for the three pre eminent religions of the book namely Judaism Christianity and Islam The lengthy and involved encounter of the Greek philosophical tradition and especially of the Platonic Aristotelian and Neoplatonic strands of that tradition initially with the Hellenistic cults and subsequently with the three Abrahamic religions played a critical role in shaping the basic contours of

Western intellectual history from Plato to Philo of Alexandria Plotinus Porphyry Augustine and Proclus from Aristotle to al Farabi Avicenna al az l Aquinas and the medieval scholastics and eventually to Meister Eckhart and Nicholas Cusanus and such modern philosophers and theologians as Richard Hooker the Cambridge Platonists Jacob Boehme and G W F Hegel to name but a few The aim of the twenty four essays comprising this volume is to explore the intellectual worlds of the three Abrahamic religious traditions their respective approaches to scriptural hermeneutics and their interaction over many centuries on the common ground of the inheritance of classical Greek philosophy The shared goal of the contributors is to demonstrate the extent to which the three Abrahamic religions have created similar shared patterns of thought in dealing with crucial religious concepts such as the divine creation providence laws both natural and revealed such problems as the origin of evil and the possibility of salvation as well as defining hermeneutics that is to say the manner of interpreting their sacred writings

The Oxford Handbook of Islamic Law Anver M. Emon, Rume Ahmed, 2018-10-25 This volume provides a comprehensive survey of the contemporary study of Islamic law and a critical analysis of its deficiencies Written by outstanding senior and emerging scholars in their fields it offers an innovative historiographical examination of the field of Islamic law and an ideal introduction to key personalities and concepts While capturing the state of contemporary Islamic legal studies by chronicling how far the field has come the Handbook also explains why certain debates recur and indicates fundamental gaps in our knowledge Each chapter presents bold new avenues for research and will help readers appreciate the contested nature of key concepts and topics in Islamic law This Handbook will be a major reference work for scholars and students of Islam and Islamic law for years to come

A Philosopher of Scripture Raphael Dascalu, 2019-08-05 Tan um b Joseph ha Yerushalmi d 1291 Fus Egypt was a rigorous linguist and philologist philosopher and mystic and a biblical exegete of singular breadth As well as providing us with an insight into the inner world of a profound and original thinker his oeuvre sheds light on a Jewish historical and cultural milieu that remains relatively poorly understood the Islamic East in the post Maimonidean period In *A Philosopher of Scripture The Exegesis and Thought of Tan um ha Yerushalmi* Raphael Dascalu presents the first detailed intellectual portrait of Tan um ha Yerushalmi Tan um emerges as a polymath with a clear intellectual program an eclectic thinker who brought multiple traditions together in his search for the philosophical meaning of Scripture

Law, Religion and Love Paul Babie, Vanja-Ivan Savić, 2017-09-01 Increasingly the modern neo liberal world marginalises any notion of religion or spirituality leaving little or no room for the sacred in the public sphere While this process advances the conservative and harmful behaviours associated with some

religions and their adherents exacerbate this marginalisation by driving out those who remain religious or spiritual And all of this is seen through the lens of social science which seems to agree that religion remains important if not in spiritual sense at least as a source of folklore and a means of identification religions remain rooted in the societies from which they emerged and the legal systems of many of those societies emerged from religious sources even if those societies remain unwilling to admit that fact In the modern materialistic world of conformity religion is less a source of guidance than a label of identification The world therefore faces two issues First the decreasing level of spirituality in the West widens the gap between worshippers and those who have left their faith eg agnostics and atheists or those who look at religion as a matter of picking and choosing from a range of options And second the strong connections to religion which remain in many nations but which are often misused in the secular public sphere both in the West and internationally In such divided worlds both religious and secular forces tend to lock themselves into closed groupings of pure truth and in so doing increase the level of disagreement in turn producing radicalism In short the modern world is divided in two ways between religious and non religious although some have argued that the non religious secular is itself a form of civil religion and between those subscribing to divergent understandings of the same religious tradition While hyperbolic and histrionic the term culture wars nonetheless best captures what we see happening in the public sphere today The question emerges then how best to accommodate the democratic principle which posits that the majority should feel that it lives in a society of its own with the human rights principle holding that is necessary to ensure the full protection of the minority's rights How to balance these seemingly opposed principles We are very familiar with the differences that appear between secular and sacred in the modern world yet what of the similarities amongst scriptures and laws which seek to encourage mutual understanding cooperation and even cohabitation Because religion itself is a source of law a set of exhortations or commands as much as a set of rights every major religion offers an approach to encountering the Other in a positive constructive affirming way and it is here that religions reveal much that they have in common This book draws together the work of scholars engaged in exploring the possibilities for a utopian world in the sense fostered by St Thomas More The essays explore those dimensions of religious and civil law where love however that is defined by relevant texts fosters and encourages acceptance of the Other and will offer perspectives on the ways in which religious or civil state law command one to act in the spirit of love *The Political Theory of Liberation Theology* John R. Pottenger, 1989-09-14 This is the first in depth look at the political theoretical structure of liberation theology Pottenger shows how liberation theologians writing from the perspective of the poor and oppressed denounce modernity and especially capitalism for having caused poverty and military dictatorships He evaluates the liberation theologians methodological approach to political theory and the crucial role of Marxism He also analyzes liberation theologians assessment of Latin American political economy and their moral arguments for political activism in response to these assessments Pottenger addresses the general question of to what extent liberation theology has achieved

its ultimate objective of a just society of the convergence of traditional social values and modern political science **Civil Society, Second Edition** John Ehrenberg, 2017-02-14 Provides a comprehensive discussion and analysis of two and a half millennia of Western political theory as well as what the future may hold for how civil society might be understood John Ehrenberg analyzes both the usefulness and the limitations of civil society and maps the political and theoretical evolution of the concept and its employment in academic and public discourse From Aristotle and the Enlightenment philosophers to Black Lives Matter and the Occupy movement the book provides an indispensable analysis of the possibilities of what this increasingly important idea can and cannot offer to contemporary political affairs Page 4 of cover
