Lost Mines and Treasure Tales of Ivan Herring, 2018-11-23 This book contains 70 stories of Lost Mines and Treasurers

in Colorado and New Mexico plus a special section on the Gran Quivira of New Mexico Many of the stories concern treasurers buried by the French Spanish Indians and Colonial settlers during the many incidents and wars that rocked the area in the 16th through the 19th centuries I found the data for this book while doing research on old mines for my series of books *Mines of the American West* The Lost Mines and Treasurers were identified from articles in early American newspapers and other sources considered reliable Where possible for those lost treasures still to be found I have tried to tie them to modern mines or areas and include some background data on such areas In doing this some of them seemed to fall short in the area of fact and logic which I may point out The reader should understand that this is a collection of data from old and new publications and not a focused specifically on the effort to find the specific properties although some research especially from a logic standpoint has been done If the reader can glean critical information from these original articles and the limited research that allows or helps him or her to locate a lost mine or lost treasure I wish him or her well and leave it to them to reap the rewards The print version of this book has been produced in the 8 1/2 X 11 format to keep the price low If done in 6 X 9 or smaller the book would be 2 or 3 times as many pages in length and would cost substantially more to increased on demand print costs These seem to be heavily influenced by the total number of pages While this may be one of the seeming drawbacks to on demand printing the benefit of on demand printing is that specialty books such as this are now practical to publish where the target market may be relatively small and minimal returns to the author are acceptable It should also be noted that I may periodically update and revise the electronic version before creating a Second Edition The guidelines for submissions for the electronic versions allow updates without producing a full new edition while the print on demand or hard copy paperback version does not and required a full new edition to be developed to incorporate any changes As such the two books may not be exactly the same as it is likely the electronic version will be updated more frequently than the paperback

New Mexico Melissa McDaniel, Ettagale Blauer, 2008 Chronicles the history geography government economy people and landmarks of the state of New Mexico More Treasure Stories and Folklore of the Caballo Mountains William H. White, 2011-08-12 This is the fourth book by William White and deals with treasure hunting lore and the actual treasure hunters who still walk the upper reaches of the fabled Caballo Mountains This will be the last book dedicated exclusively to this Mountain Range There will be other stories no doubt but not enough to fill a complete volume with William is a treasure hunter first and a writer second and because of this most of his stories come from actual treasure hunting experiences This book was designed to finish off most of the untold stories that abound here It would be pure conceit to assert that all the treasure stories about the Caballo Mountains are now committed to print This is simply not true and William would agree that these tales represent only those stories that he is aware of His style of writing is both entertaining and informative in such a manner that one could easily relate to his experiences This is another book that will be difficult to put down once one has started reading it William is humbled by the fact that so many people enjoy reading his books and says that it fuels the fires of creative energy that causes him to continue his work The reader will find this an honest book with no punches pulled for the sake of someone's feelings It is uniquely William White and I can almost hear him telling the stories as I read them in print

Unsolved Mysteries of the Old West W.C. Jameson, 2013-02-16 This book explores and examines twenty one of the Old West's most baffling mysteries Many relate to the death or disappearance of some of the best known lawmen and outlaws in history such as Billy the Kid Buckskin Frank Leslie John Wilkes Booth The Catalina Kid and Butch

The Lost Gold Mine of Juan Mondragón Charles L. Briggs, Julián Josué Vigil, 2022-08-16 Spanish and English version of Historia de la mina perdida de Juan Mondragón with editorial matter in English Includes bibliographical references p 249 262 and index

Legends and Tales of the American West Richard Erdoes, 2011-07-20 From Davy Crockett Wild Bill Hickok and Calamity Jane to Paul Bunyan Pecos Bill and Frank and Jesse James here are more than 130 colorful stories of the pioneers cowboys outlaws gamblers prospectors and lawmen who settled the wild west creating a uniquely American hero and an enduringly fascinating folk mythology In this wonderfully boisterous treasury of tall tales everyone and everything is larger than life and bragging is elevated into an art form Many of these stories are of real people and real events more than a few however grew taller and funnier as they made their rounds from wagon train to campfire to rodeo to miners quarters But even if it is far from established that Daniel Boone and Davy Crockett were able to

kill three men with one bullet or subdue ferocious grizzly bears with their fists they come vividly to life here as beloved characters who have become part of the fabric of the American imagination With black and white illustrations throughout Part of the Pantheon Fairy Tale and Folklore Library The lost gold mine of Juan Mondrag—n Melaqu'as Romero,1990-03 One of the most fascinating folktales of New Mexico concerns a gold mine believed to lie near Truchas Peaks north of Santa Fe Initially discovered by Spanish explorers the mine is said to have been worked by three secretive German immigrants who took its location to their graves Some years later so the story goes the mine was rediscovered by a poor herder named Juan Mondragon who died at the hand of his adulterous wife before he could make its location known *Treasure of the Sangre de Cristos* Arthur Leon Campa,1994 This collection of tales and traditions from the Southwest includes stories of lost mines stacked with bars of gold mule loads of silver cached away in outlaw hoards and fabulous Jesuit treasures buried when that order was expelled from New Spain Some treasure locations would be rediscovered by chance or by an old map and somehow always lost again But not all these folk treasures are of material wealth There is the story of a nun who loved a soldier and repented and whose kneeling figure may still be seen as a mountain rock formation There is the Hermit of Las Vegas an actual person who after traveling between Argentina and Quebec settled in New Mexico where he became the subject of affectionate legends **Handbook of Hispanic Cultures in the United States: Literature and Art** Nicolàs Kanellos,Claudia Esteva-Fabregat,Francisco LomelÓ,1993-01-01 Recovering the U S Hispanic Literary Project is a national project to locate identify preserve and make accessible the literary contributions of U S Hispanics from colonial times through 1960 in what today comprises the fifty states of the United States True Tales of the Prairies and Plains David Dary,2007 This is a collection of stories set on the prairies and plains of middle America that stretch from Rio Grande northward into Canada **Mexican Folk Narrative from the Los Angeles Area** Elaine K. Miller,2014-08-27 Urban Los Angeles is the setting in which Elaine Miller has collected her narratives from Mexican Americans The Mexican folk tradition varied and richly expressive of the inner life not only of a people but also of the individual as each lives it and personalizes it is abundantly present in the United States Since it is in the urban centers that most Mexican Americans have lived this collection represents an important contribution to the study of that tradition and to the study of the changes urban life effects on traditional folklore The collection includes sixty two legendary narratives and twenty traditional tales The legendary narratives deal with the virgins and saints as well as with such familiar characters as the vanishing hitchhiker the headless horseman and the llorona Familiar characters appear in the traditional tales Juan del Oso Blancaflor Pedro de Ordimalas and others Elaine Miller concludes that the traditional tales are dying out in the city because tale telling itself is not suited to the fast pace of modern urban life and the situations and characters in the tales are not perceived by the people to be meaningfully related to the everyday challenges and concerns of that life The legendary tales survive longer in an urban setting because although containing fantastic elements they are related to the beliefs and hopes of the narrator even in the

city one may be led to buried treasure on some dark night by a mysterious woman The penchant of the informants for the fantastic in many of their tales often reflects their hopes and fears such as their dreams of suddenly acquiring wealth or their fears of being haunted by the dead Miller closely observes the teller's relation to the stories to the duendes the nimas Death God the devil and she notes the tension on the part of the informant in his relation to their religion The material is documented according to several standard tale and motif indices and is placed within the context of the larger body of Hispanic folk tradition by the citation of parallel versions throughout the Hispanic world The tales transcribed from taped interviews are presented in colloquial Spanish accompanied by summaries in English **Ghosts & Legends of Colorado's**

Front Range Cindy Brick, 2018-10-08 Stunning natural wonders and bustling cities make Colorado's Front Range one of the country's best places to live but its rowdy past left some residents unable to quit the state even in death Outside Fort Collins many a startled visitor spies grisly shadows hanging from the notorious Hell Tree A reputed murderer stalks the Greeley Courthouse near where he was lynched for his alleged crimes The disembodied heads of two vengeful banditos float through the basement of the Capitol Building in Denver And the Broadmoor Hotel of Colorado Springs plays nightly host to a mysterious phantom lady Author Cindy Brick reveals these and more gripping tales of the Front Range's spectral history

Women as Ritual Experts Susan Starr Sered, 1996 By analyzing the rituals daily experiences life stories and non verbal gestures of Jewish women from Kurdistan and Yemen now living in Jerusalem Sered discloses strategies these women have used to circumvent the patriarchal institutions of Judaism and to develop their own traditions within Torah Judaism

He-Said-She-Said Marjorie Harness Goodwin, 1990 carefully researched and clearly written Goodwin makes a major step in redefining the enterprise of studying language use in context and across contexts American Ethnologist I recommend the book highly John Haviland American Anthropologist Goodwin's thoughtful interpretation of these examples of children's conversation is replete with wise insights challenging critical darts and well referenced links to a wide literature Child Development Abstracts she didn't just take field notes She hung around with the children in her neighborhood until they trusted her then tape recorded their natural conversations as they played together This is Goodwin's long awaited compilation of years of painstaking analysis of the transcripts of those tapes It is not only one of the best sources if not the best source for anyone interested in how boys and girls use language in their daily lives indeed to constitute their daily lives it is also a model ethnographic study of language in its natural setting Deborah Tannen author of You Just Don't Understand Women and Men in Conversation This groundbreaking study describes in detail the complexities of children's communication By integrating the analysis of conversation with ethnography Marjorie Harness Goodwin systematically and empirically reveals how a group of urban black children constitute their social world through talk Learning How to Ask Charles L. Briggs, 1986-07-25 Interviews are ubiquitous in modern society and they play a crucial role in social scientific research But as Charles Briggs convincingly argues in this book received interviewing techniques rest on fundamental misapprehensions

about the nature both of the interview as a communicative event and of the nature of the data that it produces Furthermore interviewers rarely examine the compatibility of interviews as a means of acquiring information to one another These oversights often blind interviewers to ensuing errors of interpretation as well as to the limitations of the interview as a means of acquiring data To conflict these problems Professor Briggs presents an analysis of the communicative blunders that he himself committed in conducting research interviews among Spanish speakers in northern New Mexico By focusing on these errors and exploring how they may be avoided he is able to propose new techniques for designing implementing and analyzing interview based research These rest on identifying the subjects resources for conveying information and the relative compatibility of the shared rules and understandings that underlie their strategies with those associated with interviews Critical of existing paradigms of interviewing which he sees as deriving from Western folk theories of reality and communication Briggs shows that the development of more sophisticated interviewing methodologies requires further research into interviewing itself Briggs s conclusions provide a basis for the reexamination of current uses of interviews in a wide range of contexts from social science research to job applications welfare and health care delivery criminal and legal investigations journalism and broadcasting and other areas of everyday life His book will appeal to linguists sociologists anthropologists historians psychologists as well as other readers whose research or professional activities depend on the use of interviews
