Nicaragua Or Honduras Or El Salvador:

Politics in Central America Thomas P. Anderson, 1988-04-21 A clear and balanced presentation of the dilemmas associated with each of the four nations A skillful cultural framework is provided in the first chapter which serves as an overview Foreign Affairs A fine study Anderson s reputation as a scholar and a Latin Americanist will be enhanced when this study has time to make its imprint American Political Science Review This new volume provides an up to date survey of the Central American states involved in the current conflict While several studies of the individual countries in the region have appeared there have been no recent attempts at a synthesis of the problems of the area Politics in Central America fills this gap analyzing the roots of the current crisis and suggesting solutions to the problems of the region The author s chief assertion is that the roots of the problems in Central America are not to be found in the East West struggle but in the competition within each country for control of the scarce natural resources This crisis in Central America calls for drastic and economic changes The key question Anderson claims is whether or not these changes can be brought about within a democratic framework Inside Central America Phillip Berryman, 1987 **The Nightmare of Reason** Ernst Pawel, 1985

Central America John Baily, 1850 John Baily was an Englishman who lived for many years in Central America He was employed in 1837-38 by the government of Nicaragua to survey a potential canal route from the Caribbean Sea to the Pacific Ocean In 1850 Baily published this book and a separate map of Central America that showed four proposed routes for an isthmian canal Central America begins with an introductory chapter on the geography history and economy of the region as a whole followed by individual chapters devoted to Guatemala El Salvador Honduras Mosquito Territory in present day Nicaragua and Honduras Nicaragua and Costa Rica Each chapter describes physical features and boundaries and provides information about inhabitants products and other features The chapter devoted to Nicaragua is by far the longest and contains a detailed discussion of the proposed route for an inter oceanic canal through the country As indicated in the subtitle Baily was convinced of the remarkable capacity for colonization of the Central American countries The book concludes with a section on immigration Baily compared agricultural conditions in Central America to those in southern Texas and argued that European farmers who settled in the region and worked hard would prosper and prepare a handsome inheritance for their posterity The Central Five: Guatemala, Honduras, El Salvador, Nicaragua, Costa Rica Sydney Greenbie, 1943 Adventuring in Central America David Rains Wallace, 1995 **Memories of a Central American** Judá Guzmán, 1988 **The American Journal of International Law**, 1917 Vols for 1970-73 include American Society of International Law Proceedings no 64-67 **Violent Peace** David R. Mares, 2001 David R Mares argues that the key factors influencing political leaders in all types of polities are the costs to their constituencies of using force and whether the leader can survive their displeasure if the costs exceed what they are willing to pay Violent Peace proposes a conceptual scheme for analyzing militarized conflict and supports this framework with evidence from the history of Latin America Foreign

Latin America And The U.s. National Interest Margaret Daly Hayes,2019-03-04 Arguing for a new and sober look at the nature of U S Latin American relations Dr Hayes addresses the question Does the United States have compelling national interests in maintaining close relations with Latin American countries Her conclusion is yes but for reasons different from those offered in the traditional literature or espoused by many policy analysts She maintains that U S interests in relations with Latin America are primarily political secondarily economic though economic ties are the basis of the relationship and only marginally military Proper emphasis on these long term interests may be critical to U S national security in a global as well as regional context Dr Hayes points out that the Latin American countries occupying a unique position among

developing nations today because of their comparatively successful experiences in achieving economic growth and development represent an increasingly important political influence in both the developed and developing worlds Moreover she argues it is in the U S interest to give economic aid to the less developed countries in the hemisphere particularly in the Caribbean Basin U S security is better preserved and enhanced by encouraging political and economic stability in the region than by promoting military alliances that Latin Americans may not really want Supporting the need for a revised rationale for U S Latin American relations Dr Hayes focuses in detail on the regions and nations of special interest to the United States today the Caribbean Basin Mexico in a chapter by Professor Bruce M Bagley Brazil and the Southern Cone
